ASSUREBUY

MICROSOFT GREAT PLAINS

AssureBuy, Inc. provides businesses with real-time payment processing, risk management and digital proof services.

AssureBuy is in one business and one business only. AssureBuy specializes in transaction and payment processing. As such, the company offers Microsoft Great Plains users a complete, single-vendor solution for automating all credit card transaction needs – mail, fax, phone and web-based orders. AssureBuy Payment Processing includes a payment gateway, eliminating the extra costs and additional integration and management attention required by third-party transaction processors.

AssureBuy Payment Processing allows Dynamics and eEnterprise users to process credit card payments in real-time or in batch mode over any TCP/IP connection. Response time is about three seconds. The product offers seamless integration to Great Plains Sales Order Processing, Invoicing and Receivables Management modules and includes support for payment authorization, sales and returns. Additional options are available in risk management and fraud prevention, e-mail messaging, real-time tax and shipping calculations and a 24x7 browser-based order management system. AssureBuy supports all major credit, debit and purchase cards and processes over the preeminent networks, like First Data and Vital.

AssureBuy Payment Processing Features

- Includes an easy-to-use installation wizard.
- Supports high volume processing requirements; above 35,000 transactions per hour from 50 concurrent users.
- Supports AVS (Address Verification Service).
- Supports CVV2 (Card Verification Value).
- Provides industry leading risk management and fraud prevention options.
- Encrypts all credit card numbers in the Great Plains database, with no "hand-off" to third parties.
- Processes credit card returns.
- Supports authorization, capture and sales transactions.
- Integrates easily with web-based ordering systems.
- Allows automatic capture of transactions during batch processing.
- Allows manual entry of approval information.
- Provides the ability to force authorization before fulfilling orders.
- Provides the ability to force order fulfillment before capturing authorized transactions.
- Handles expired authorizations automatically.
- Supports separate merchant accounts for each company.
- Provides a single contact point for both payment processing and payment gateway issues.

Setup and configuration of the payment gateway is included with purchase of the AssureBuy Payment Processing module for Microsoft Great Plains. AssureBuy will work directly with existing merchant processors to ensure that the setup and activation of AssureBuy Payment Processing goes smoothly.
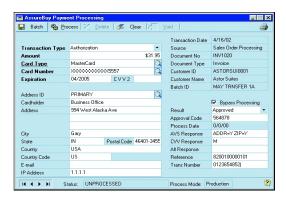

System Requirements

The AssureBuy Payment Processing module installs easily on any workstation running Dynamics Release 6.0 or eEnterprise Release 6.0

The module supports all of the major database types, including Microsoft SQL Server 2000, Microsoft SQL Server 7.0, bTrieve and c-tree.

Installation of the AssureBuy Payment Processing module will affect the functionality of the following Dynamics/eEnterprise modules:
• Sales Order Processing • Invoicing • Receivables Management

AssureBuy Payment Processing can be installed and run on any workstation using Windows 95, 98, ME, NT, Windows 2000, or XP. At least one workstation must have an Internet connection. It is suggested that all workstations using the payment processing module have access to the Internet.

AssureBuy: The Experienced Solution

Organized in 1994, AssureBuy has earned the long-term confidence of its customers. The company is now processing over 3.5 million transactions annually with a dollar value of approximately $500 million. AssureBuy is a Microsoft Great Plains Business Solutions Development Partner and a certified payment gateway with First Data Corporation. Partnerships are in place with UPS, Bottomline Technologies, TaxWare, Authentify and Exodus, a Cable & Wireless service.
